

WILLIAM OUTPACES SPEEDY DIRECTUM I.

Takes \$5,000 Free-for-All at Detroit After Season's Mark Is Hung Up.

BAD DAY FOR FAVORITES

DETROIT, July 31.—William beat Directum I. in the first of the \$5,000 free-for-all championships at the Grand Circuit meeting here today and did it easily after the chestnut king had won the first heat in the fastest time of the year.

The remarkable thing about it was the time. Rain at night and in the morning made the racing outlook slim, but it was decided to tackle it in spite of mud. Three races were staged before the feature was reached, and by that time the track was getting dry, although soft.

Directum I. was favorite at \$100 against \$80 and drew the pole. William led at the quarter and in the length at the half. Murphy did not start to drive until approaching the stretch, and then he came outside of William, overhauling him at the distance and winning by a nose in 2:00 1/4, the last quarter in 0:29 1/4.

Directum I. made the pace the next time, with William second. They raced like a team and when in the stretch William scooted by Directum I. without trouble, and won by a length, the last half this time being 0:58 1/2, and the quarter 0:29.

Anna Bradford made the pace slow in the final heat, with Flower Direct second, to the half in 1:05, and William third. William began to dig in on the turn and paced away from them, the last half being in about 0:58 on a track fully three seconds slow.

Five races on the getway card and the 2:03 pace proved to be a sell-off. Directum I. was the favorite, but he was forced to go an extra heat to do it. Charles Irwin, Andy N. J. showed the stretch in the opening heat but in the next two Buster Brown won handily. Who knows, owned by F. Leopold, was second in each of the last two heats with Andy N. J. third.

The second heat of the Class F trot was won by the first heat of the season. The judges were unable to separate William O'Neill's Patricia and H. Pet. McKloskey, the third and fourth. Patricia finally winning, with Roy Winter second, Beron third and Ar. W. Axworthy fourth. The summary:
